## SUMMARY

---

I'm an enthusiastic and innovative Information & Communication Technology student at the Durban University of Technology with hands-on experience in end-to-end web application development and a foundation in Oracle Cloud Infrastructure(OCI). I'm deeply passionate about building technology that makes life easier for people.

My interests span across cloud computing, cybersecurity and full-stack web development. Driven by curiosity, innovation and continuous learning, I enjoy transforming ideas into functional digital solutions; from restaurant systems to police docket management tools.

I also believe in giving back to the community through outreach projects that inspire, educate, and uplift others.

## LANGUAGES

---

XiTsonga(Home Language), English(Fluent), TshiVenda, SePedi, SeSotho, SeTshwana, isiZulu, isiXhosa
